FINALLY FRIDAY

Just another WordPress site

Hello world!

Welcome to WordPress. This is your first post. Edit or delete it, then start writing!

Security

SSL Certificate

Your site is verified and encrypted, meaning it's unreadable to hackers. This also helps with your SEO ranking.

 **SSL Certificate is active!**

WAF

WAF (Web Application Firewall) identifies and filters out bad bots, always having its guard up to protect your site from attacks.

 **WAF enabled!**

Site Optimization

We are making sure your site is as fast as possible!

Caching

Caching boosts your site load time and improves performance. A high performing site also performs better in search engines!

Caching enabled!

 Google Analytics

Google Analytics is one of the most popular digital analytics software that provides valuable in-depth detail about the visitors on your website.

New Users

New users are users who have never been to your site before and have visited for the first time. New users = potential new business!

Returning Users

Returning users are defined as users who have been to your site before within a pre-determined timeframe, using the same device and browser.

Sessions

Total sessions are the sum of every single time someone visits your website, regardless of if they are a new or returning visitor.

Average time on site

Average time on site is the average duration of time users spent viewing your site. The longer, the better!

Bounce rate

Bounce rate is the percentage of visitors who navigate away from your site after viewing only one page. The lower, the better!

Conversion rate

Conversion rate is the percent of users that have completed set goals on your site, such as filling out a contact form or clicking on your phone number, for example.

Traffic sources

Traffic sources are the origin through which people have found your site.
